SHARPENING CUTTING TOOLS

Special products for sharpening cutting tools

HSS and heavy metal tools require, due to their composition and special coating, special products for their sharpening.

Brugarolas Inc displays a broad fluid product range that meets these requirements for this application.

PURE PRODUCT

SERCUT 360

SERCUT 361

SERCUT products are special, thanks to their low viscosity and additive quantity enhancing higher performance

WATERY SOLUTION PRODUCTS (soluble oil)

SERVOL MD

Special for heavy metal tools.
They contain specific additives compatible with disc and tools with cobalt recovery

APPLICATIONS

SERCUT 360

Specially developed for VOLLMER or similar machinery.

SERCUT 361

Specially developed for WALTER or similar machinery.

sercut  is our synthetic special product range, with high flash point, low evaporation properties and free of solvent agents. They do not produce smoke nor fog in the workshop, and minimize consumption. They are considered top-end high quality oils with high performance and efficiency.

SERVOL MD

Specially developed for grinding machines that demand a high anticorrosive water based product.

They do not create foam in low hardness water

Transparent product that keeps shape for long time

Biostable long life product.
