9520093	G. BESLUX MARTIPASTE-08	Copper paste
9500866	G. BESLUX FLUOR H-2	Perfluorinated [800 g / 10 units] 

ADVANTAGES

The use of cartridges allows a precise and effective application of lubricant greases, being their main advantages:

1. Application comodity and convenience
2. Dose control possibility
3. Low quantity of grease waste
4. High performance and cleanness

LUBE SHUTTLE GREASES - SPECIAL CARTRIDGE -

CODE	LUBRICATING GREASE	TYPE
6010092	G.B. SHUTTLE N.80	Multipurpose antiwear lithium
6032594	G.B. SHUTTLE AUREA EH-2 GREEN	Extreme pressure lithium-calcium
6083293	G.B. SHUTTLE PLEX BLUE	Lithium complex for electric motors
9520097	G.B. SHUTTLE HAMMER MARTIPASTE	Copper paste for hydraulic and pneumatic hammers

CHARACTERISTICS

- | | |
|-------------------------------------|------------------------------|
| 1. Easier to empty the package | 6. Easy to change |
| 2. The cartridge gets fully emptied | 7. To work by vacuum |
| 3. Usage of all the grease content | 8. Do not require air supply |
| 4. Rechargeable cartridges | 9. Totally clean |
| 5. Hammer adaptations | 10. Ecologic |

The special cartridges **LUBE SHUTTLE** contain **400 g** of grease and are supplied in **12 unit** boxes.
